

KARNATAKA REDDYJANA SANGHA®

# VEMANA INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi, Recognised by Government of Karnataka and Affiliated to Visvesvaraya Technological University, Belagavi)

## To Whom It May Concern:

I take immense pleasure in recommending Darshan to your renowned institute for the Postgraduate program. I have known Darshan for more than six years now, and have come to observe his hardworking nature and focused determination towards his goal. I was his Faculty and the Project Supervisor during his Bachelors in Engineering. I have taught him Electronic Instrumentation, Microelectronics Circuits and guided him at lab work that included Analog Electronic Circuits and Advanced Communication labs.

I can attest that Darshan is an intelligent, sincere, and practical student with a tremendous drive to reach his goals. Guiding him on his final-year project, "Land Surveillance Robot", I was able to see his innovative and calm side too. During one of the presentations of the demo, the failure of the robot movement didn't put him off. Instead, he collectively worked to get it fixed and presented it again without being panicked. Building a surveillance bot was an inventive and challenging task. Darshan along with his team delivered the project within the scheduled deadline. Darshan honed the task of coding and testing the software for the robot movements and video surveillance. He was agile and kept motivating his team towards deliverables.

Besides being diligent in his academics, I always appreciated his drive to go beyond the books and classroom where he spent time to learn Hardware programming and computer languages with students of the same interests. He captures everyone's attention when he has to deliver an idea across. He maintains a good rapport with his instructors and fellow students.

He has demonstrated excellence in all that he sets his mind to, whether it's designing an experiment, teaching oneself the new technologies or extra-curriculum. I highly recommend him to be considered as a potential candidate for admission to the graduate program in your esteemed university. I wish him all the success in his future endeavors.

**Dr. H Sunil**

Associate Professor, Department of Electronics and Communication,  
Vemana Institute of Technology, Bangalore.
